Submersible Pumps: 4" Stainless Steel

APPLICATIONS

Domestic Water Supply

FEATURES

All Stainless Steel construction--providing increased durability and reliability. Designed to provide years of trouble-free performance

No lead-leaching components--this maximizes healthy & safety for end-users

Built-in sand bearing--handles sandy conditions often found in domestic wells (can also provide protection against upthrust)

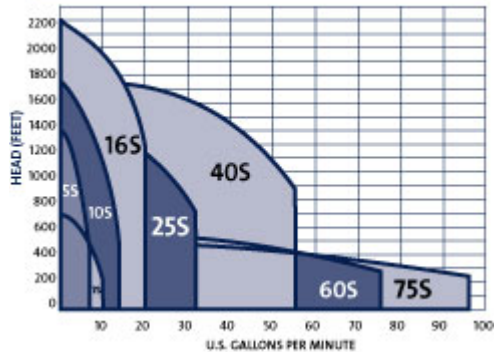

Built-in, jam-free check valves--guarantee smooth running, fail safe operation

User-friendly cable guard--aids in ease of installation

Grundfos 4" submersibles are available with a rugged Grundfos submersible motor manufactured of stainless steel. The two units together result in a quality pumping unit built to last.
